Igbo

## Professional Summary

Motivated and detail-oriented Software Engineering student at the University of Salford with a strong passion for web development and user-focused design. Experienced in building responsive web applications using HTML, CSS, and JavaScript. Adaptable, a fast learner, and always eager to take on new challenges. Balancing education and family life has equipped me with exceptional time management and problem-solving skills.

## Technical Skills

- HTML, CSS, JavaScript
- Responsive Web Design
- API Integration
- Python (Beginner)
- Visual Studio Code

## Soft Skills

- Strong Time Management
- Adaptability
- Communication
- Self-Motivation
- Team Collaboration

## Projects

### Weather App

A responsive web app that fetches real-time weather data for any city using a public API. Technologies used: HTML, CSS, JavaScript. Live Demo [| GitHub Repository](#).

### To-Do List App

Built a simple but effective to-do list that allows users to add, delete, and mark tasks as completed. Includes confetti animation when all tasks are completed.

Live Demo [| GitHub Repository](#).

## Experience

Currently building personal projects and working toward professional internships and freelance roles.
